Objective

Result oriented individual with 2 years of proven knowledge of programming, Front-End web development and over 4 years of experience working as an IT Administrator/ Application support. Aiming to leverage my skills to successfully fill the tech role at your organization.

Work Experience

2021 - Front End Developer—Tech Studio Academy

- Working with clients to develop the overall look and design of a website.
- Worked on a number of projects using frameworks like REACT.JS.
- Routinely testing websites for ease of use, speed and other quality factors.
- Created and implemented a custom CSS grid system, with CSS media queries for mobile responsiveness.
- Ensuring websites are accessible across many platforms, including laptops and smartphones.
- Writing website code with programming languages such as HTML, CSS and Javascript.

Back End Developer—Tech Studio Academy

- Created APIs for Front End Developers to facilitate transmission of Data.
- Collaborate with system engineers, data scientists, frontend developers and software developers to implement solutions that are aligned with and extend shared platforms and solutions.
- Model implementation for easy access to the backend Database, Django.
- Liaise with network administrators, systems analysts, programmers, and other software engineers to resolve any defects in products.

2018 - 2021 IT/Application support officer—Typro Services Nigeria

- Verify functionality of hardware and software components.
- Conduct consistent network backup operations.
- Installing and configuring computer hardware, software, systems, networks, printers and scanners.
- Planning and undertaking scheduled maintenance upgrades.
- Restricting access to unauthorized site, downloads and users.
- Setting up accounts for staff, educate them on log in and resolve issues arising.
- Troubleshoot hardware and software issues in person, remotely and via phone.
- Investigating, diagnosing and solving computer software and hardware faults.
- Repairing equipment and replacing parts, checking computer equipment for electrical safety.
- Maintaining records of software licenses.

2017 - IT Support Intern — Symux global

- Installing and configuring computer systems
- Diagnosing and solving hardware/software faults
- Logging customer/employee queries
- Analyzing call logs to spot trends and underlying issues
